## Demystifying Java EE

## In 28 Minutes

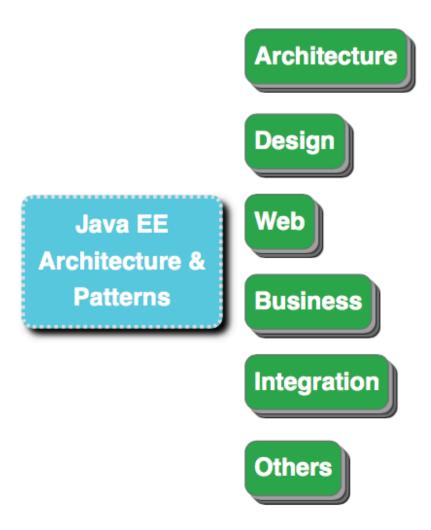

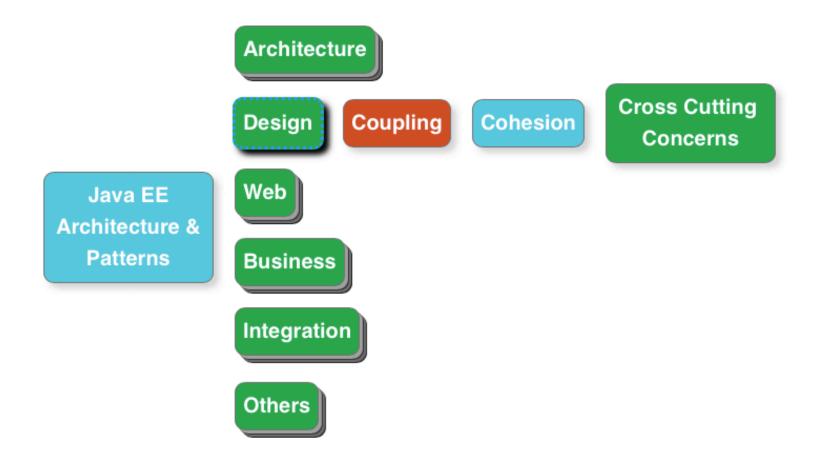

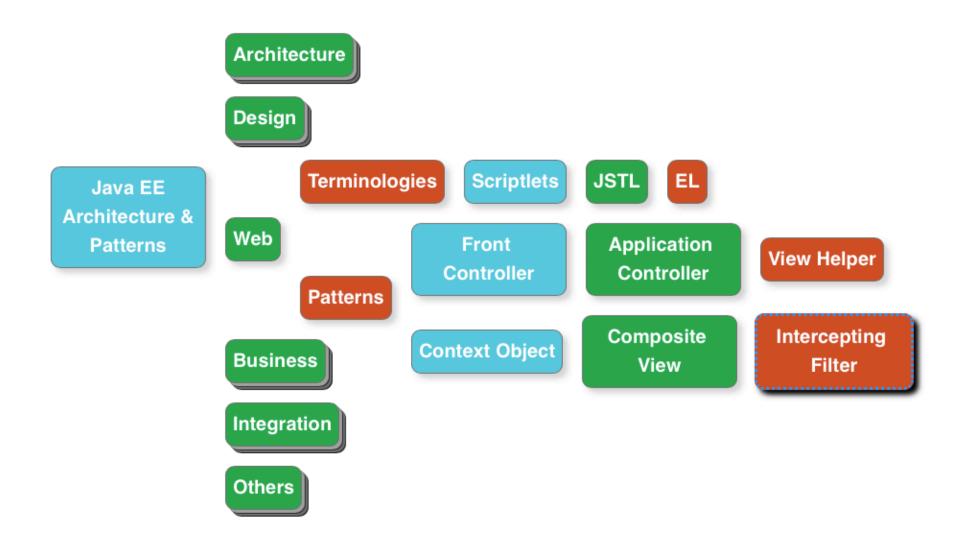

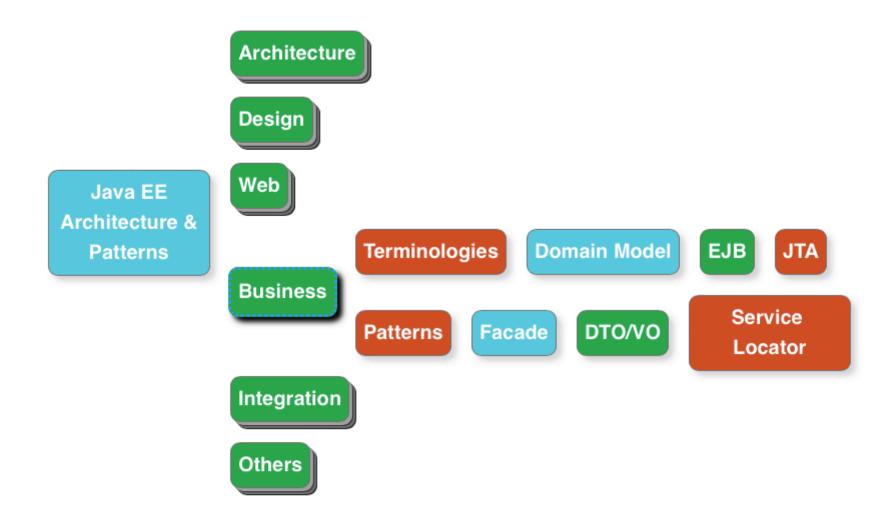

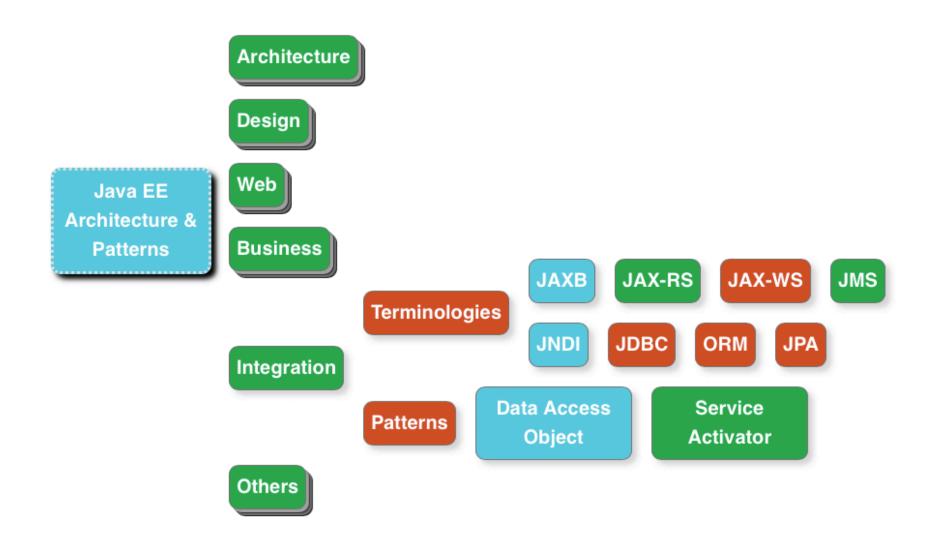

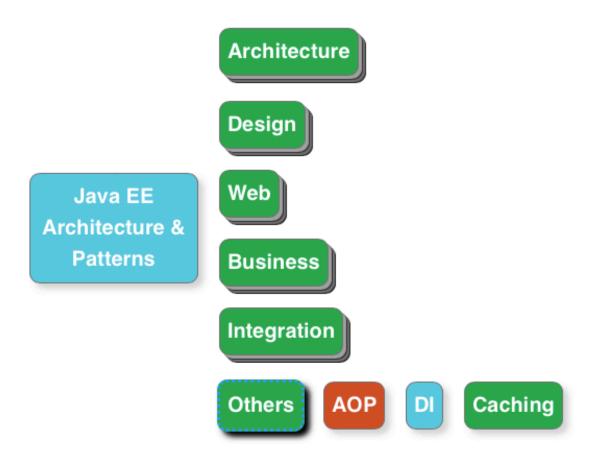

**Front** Model 2(MVC) Model 1 Controller Architecture **Multi Layered Distributed Application** System Design Java EE **Architecture &** Web **Patterns Business** Integration **Others** 

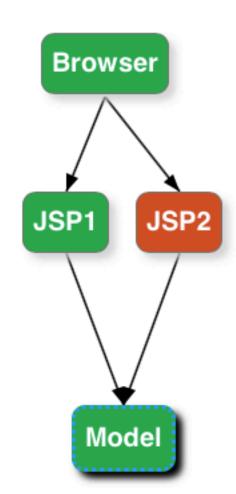

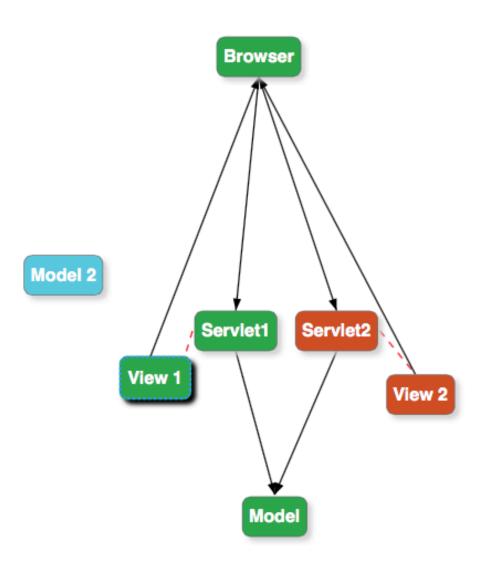

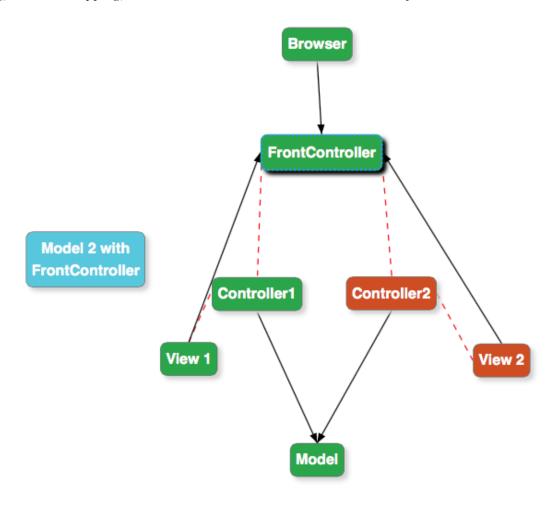

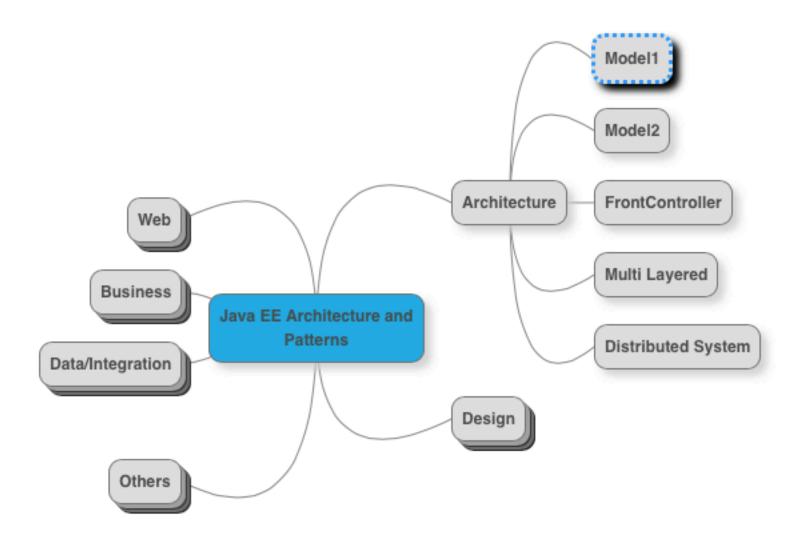

Model 1

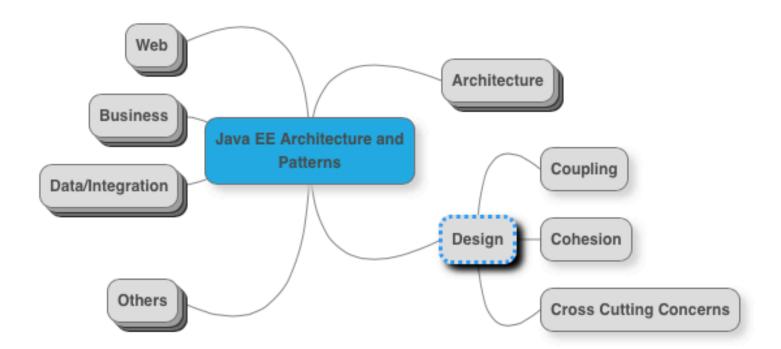

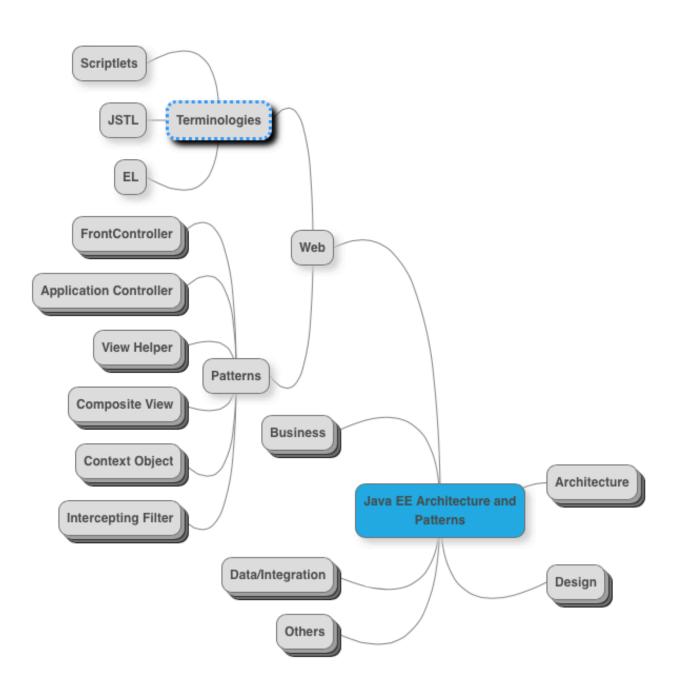

## Front Contoller

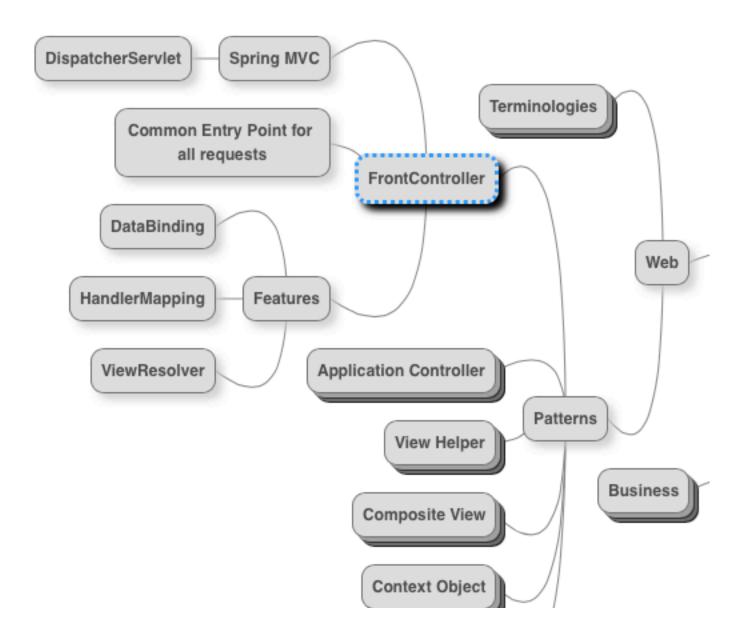

Handles Data Binding, Handler Mapping, View Resolvers and a lot of other functionality.

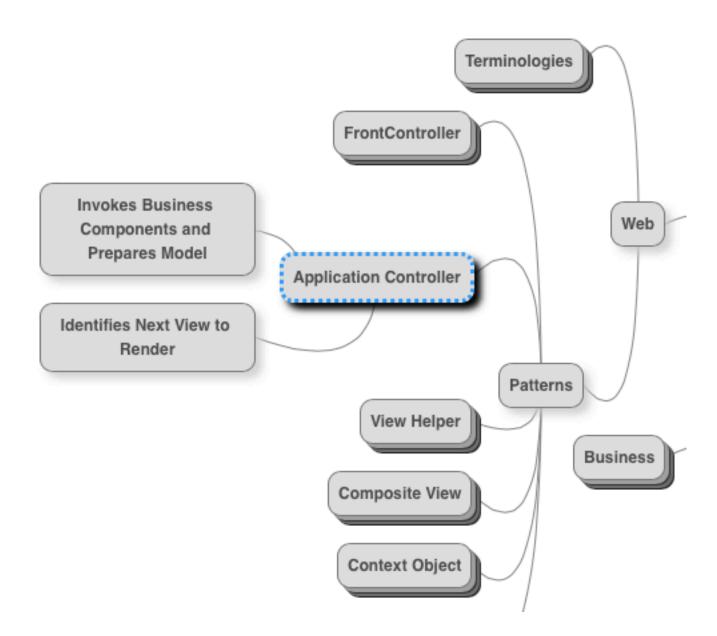

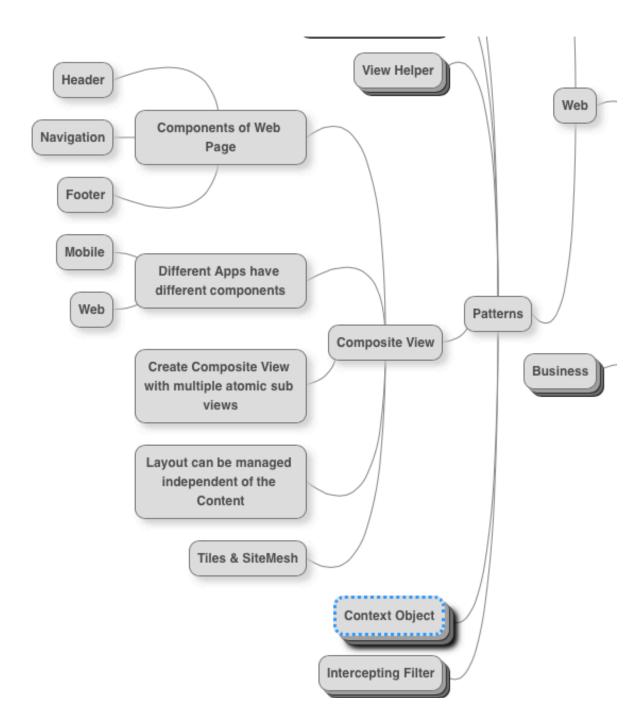

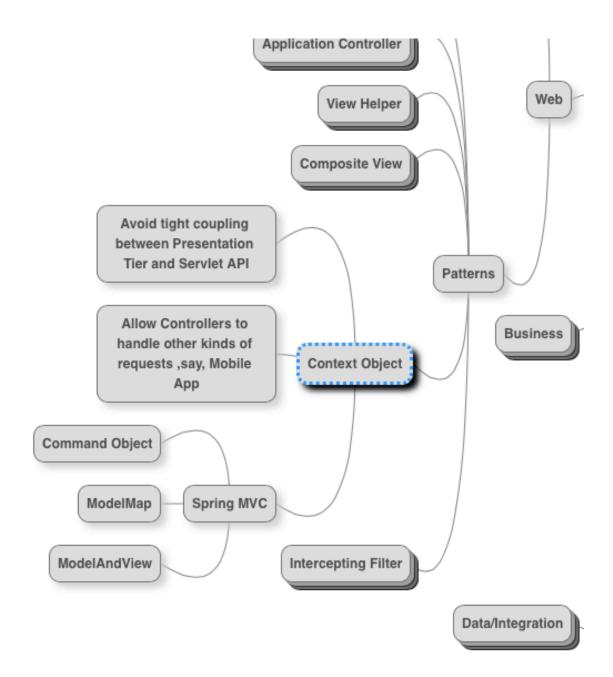

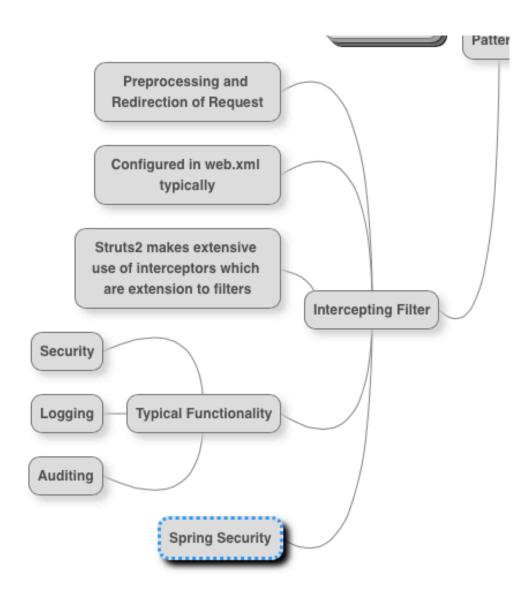

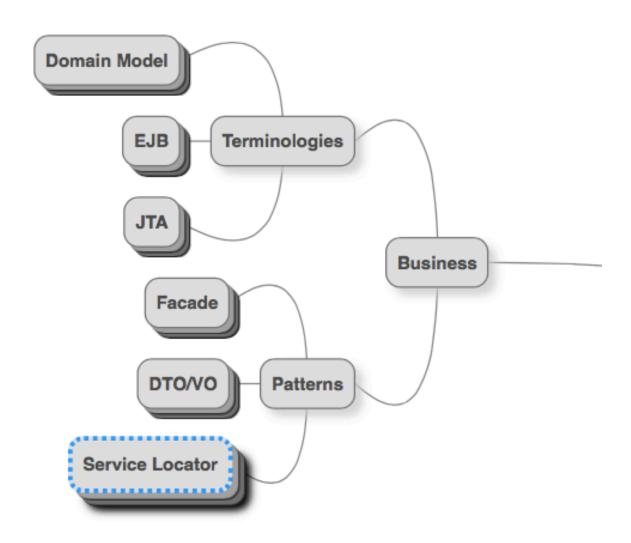

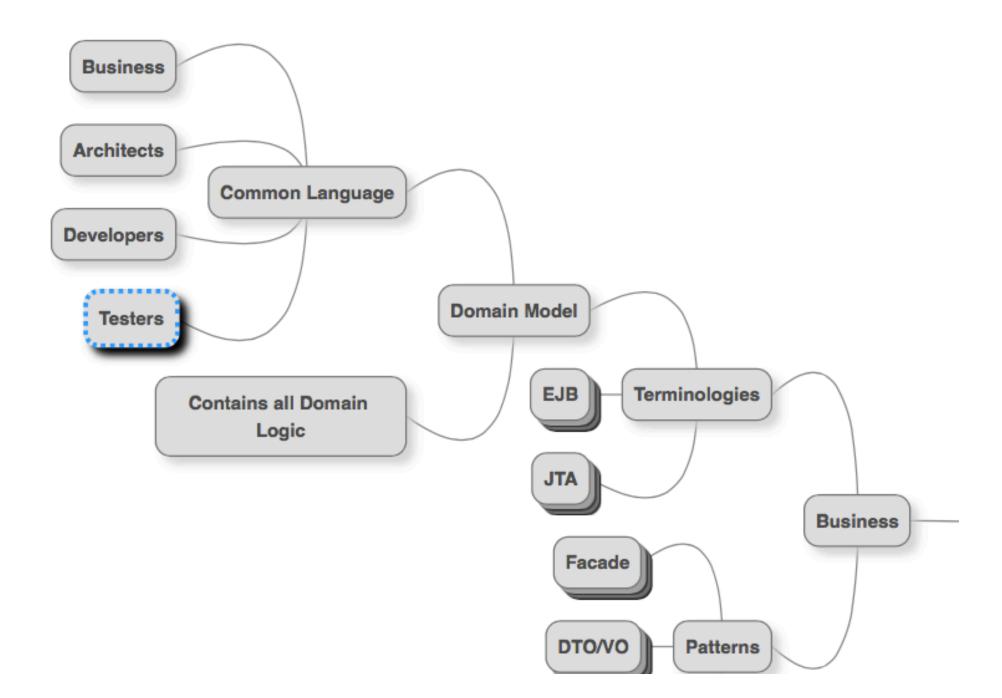

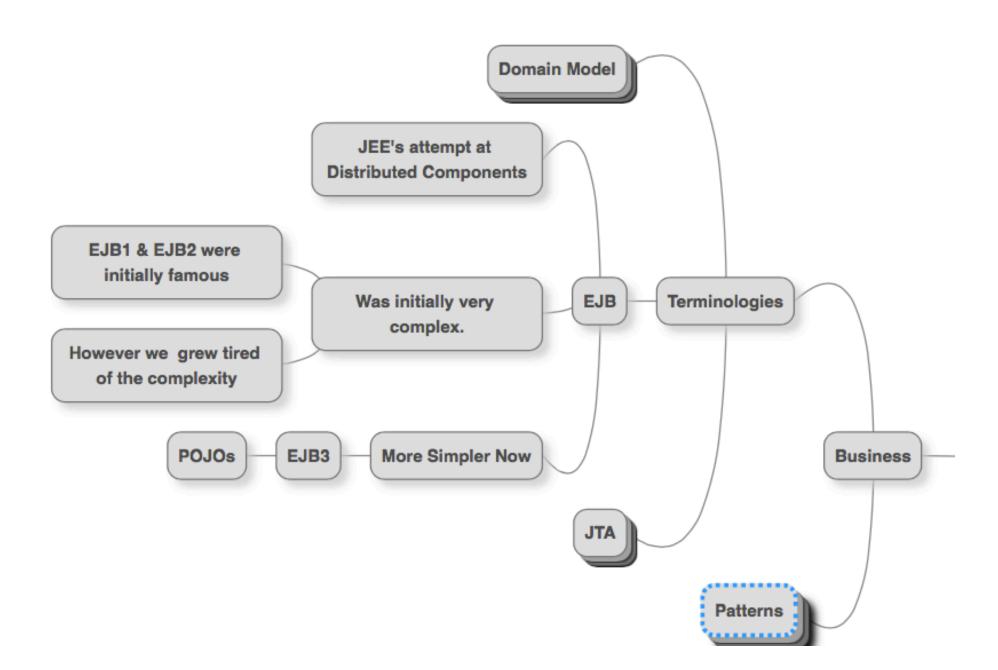

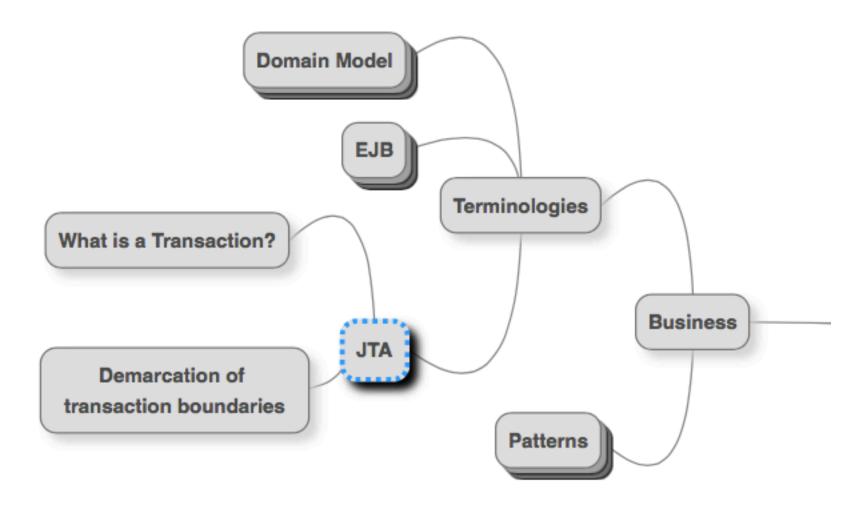

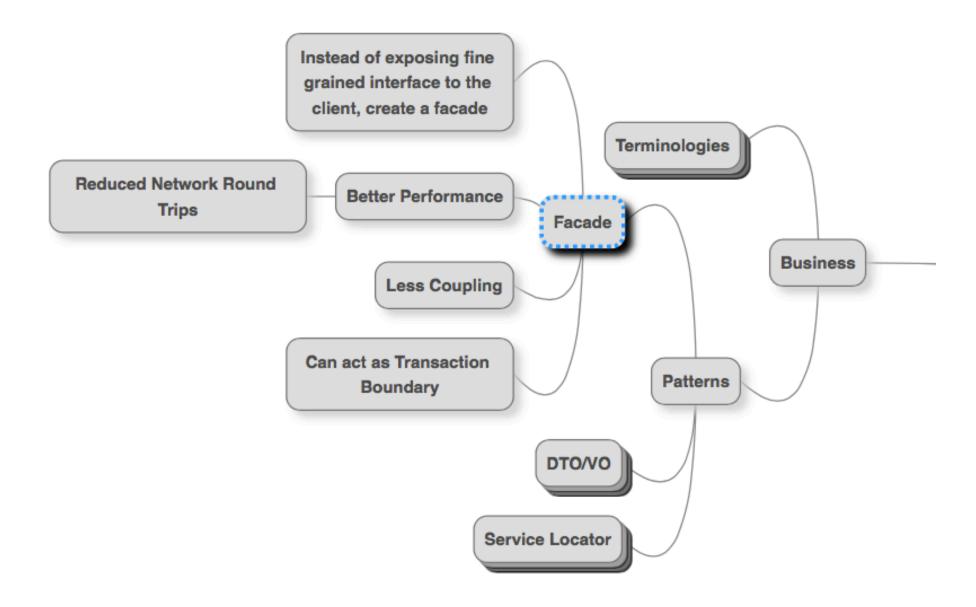

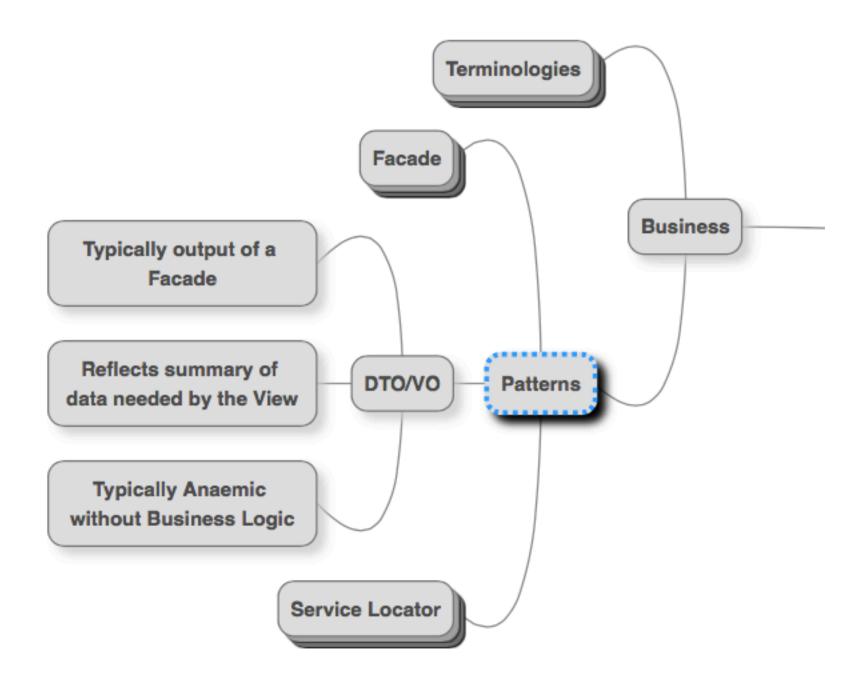

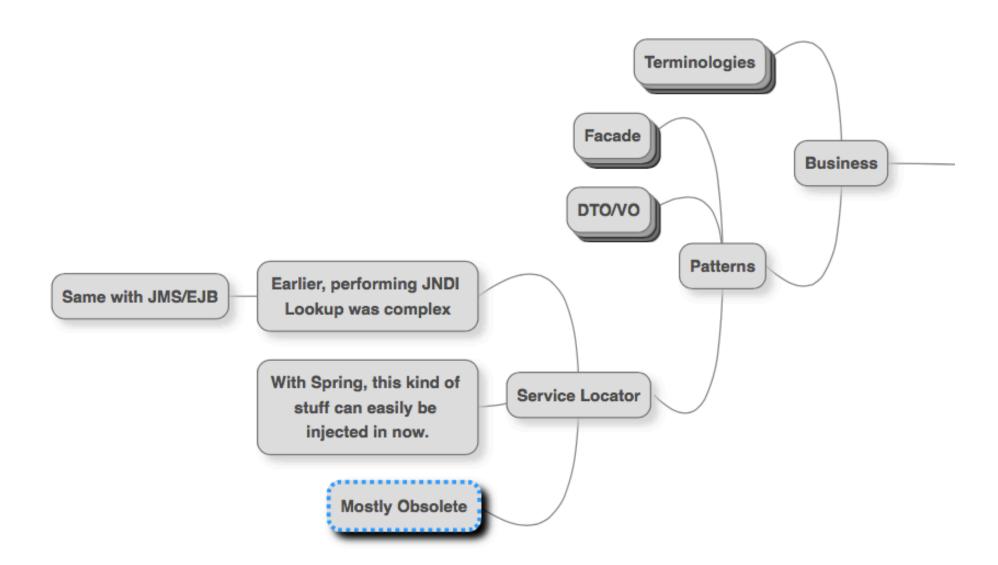

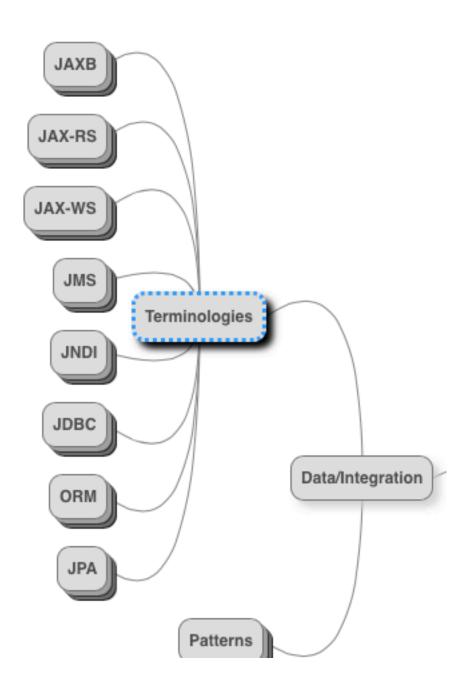

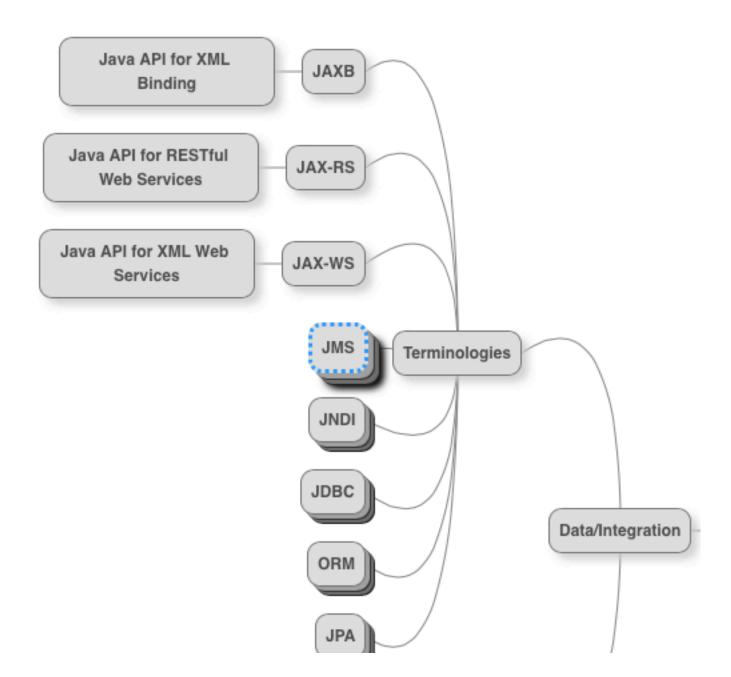

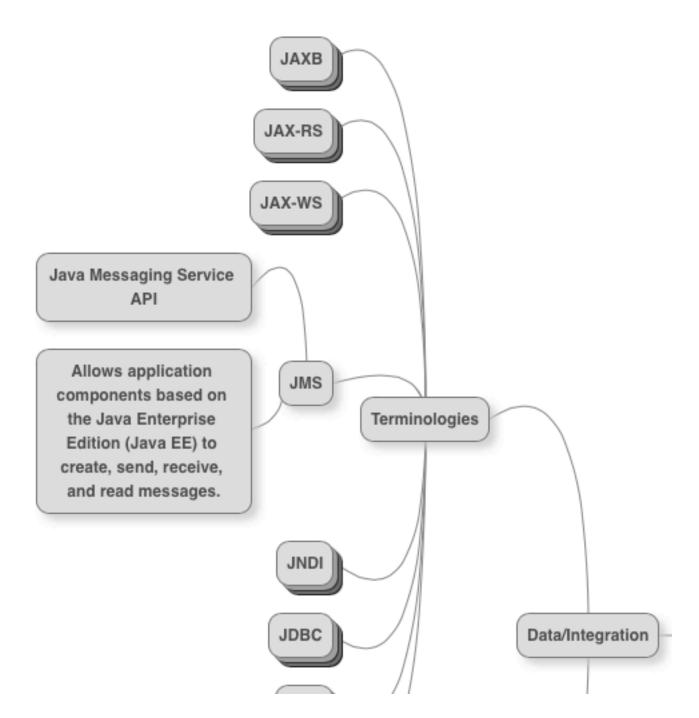

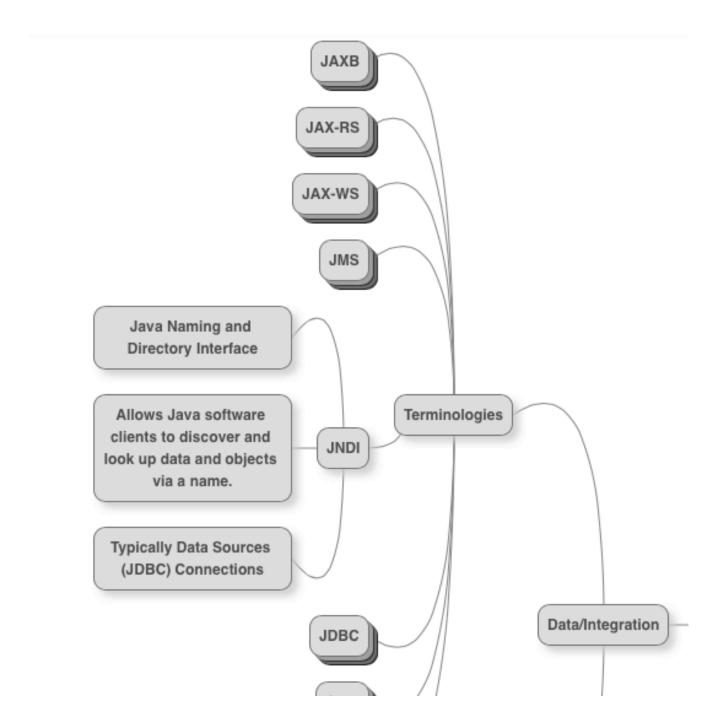

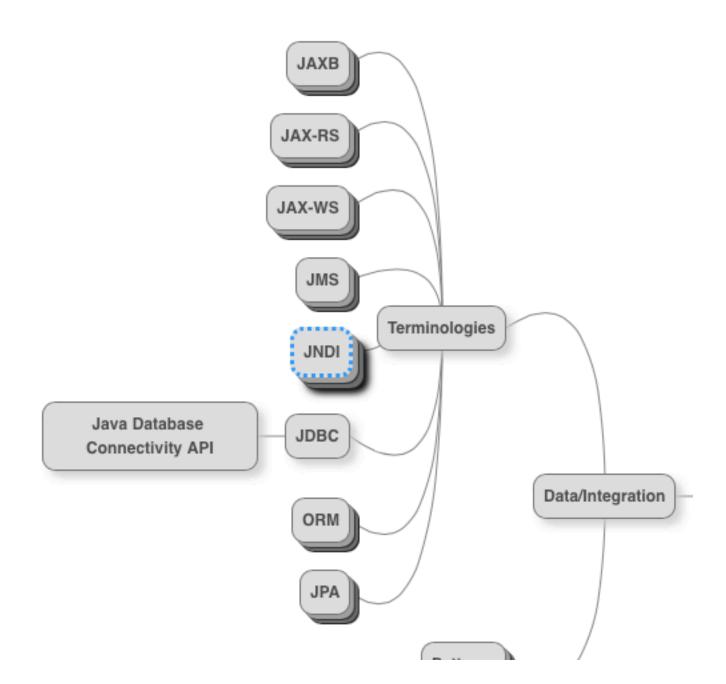

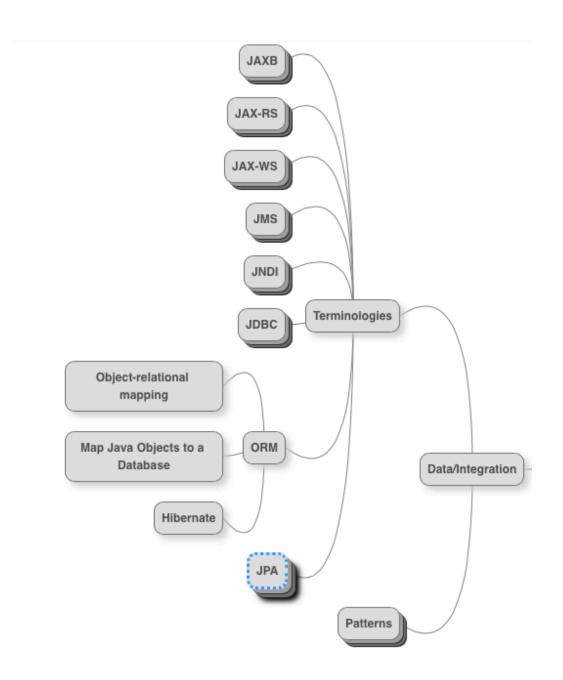

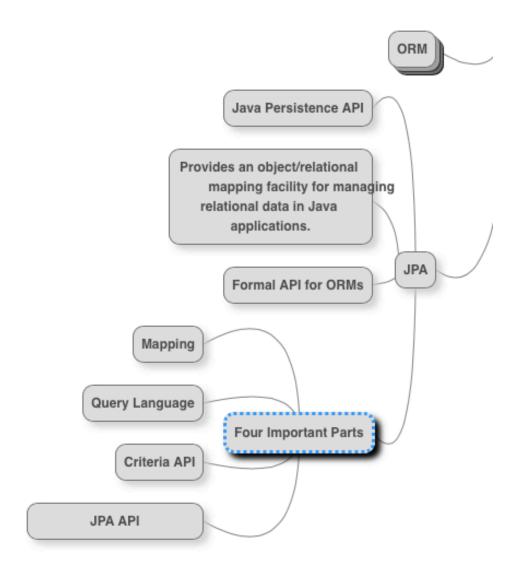

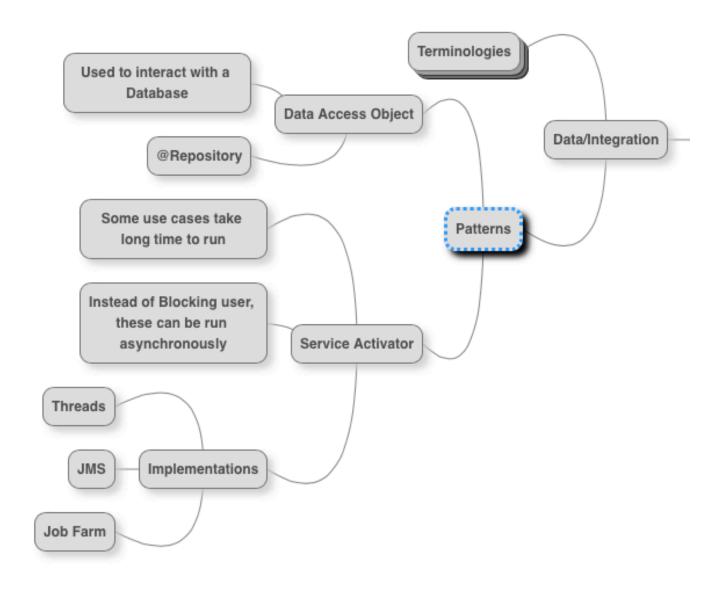

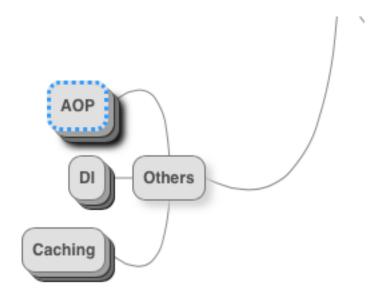

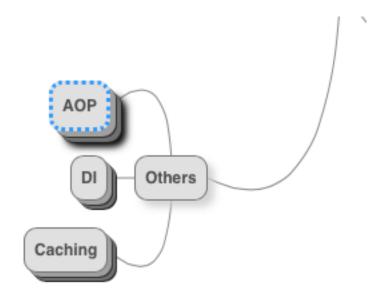

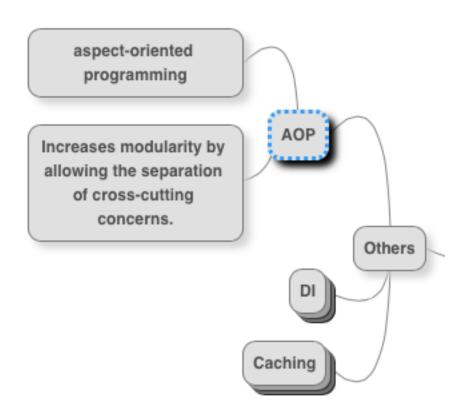

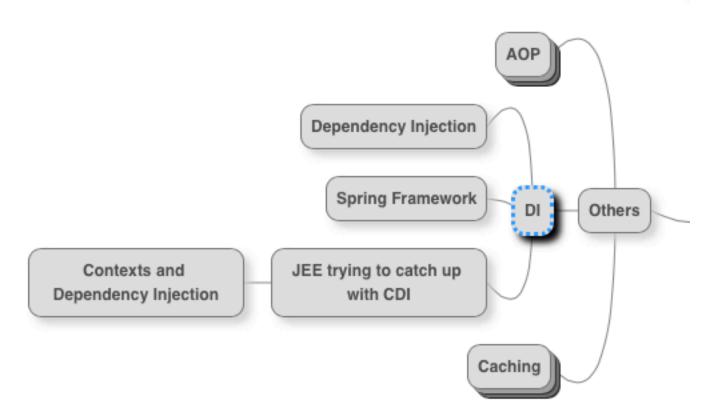

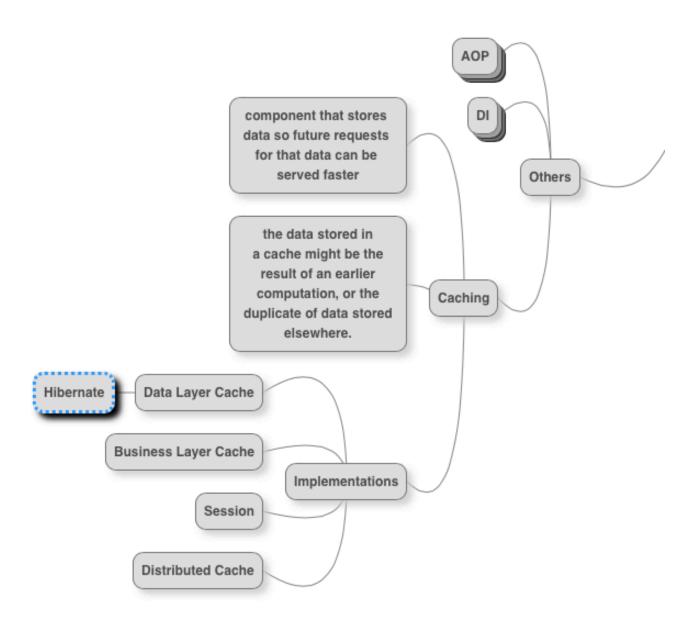

## **About in 28 Minutes**

- At in28Minutes, we ask ourselves one question everyday. How do we help you learn effectively that is more quickly and retain more of what you have learnt?
- We use Problem-Solution based Step-By-Step Hands-on Approach With Practical, Real World Application Examples.
- Our success on Udemy and Youtube (2 Million Views & 12K Subscribers) speaks volumes about the success of our approach.
- While our primary expertise is on Development, Design & Architecture Java & Related Frameworks (Spring, Struts, Hibernate) we are expanding into the front-end world (Bootstrap, JQuery, Angular JS).

#### **Our Beliefs**

- Best Courses are interactive and fun.
- Foundations for building high quality applications are best laid down while learning.

# **Our Approach**

- Problem Solution based Step by Step Hands-on Learning
- Practical, Real World Application Examples.
- We use 80-20 Rule. We discuss 20% things used 80% of time in depth. We touch upon other things briefly equipping you with enough knowledge to find out more on your own.
- We will be developing a demo application in the course, which could be reused in your projects, saving hours of your effort.
- We love open source and therefore, All our code is open source too and available on Github.
